

Natco forays into agrichemical space, invests 100 crore

28 January 2019 | News | By Sonali Wankhade

These facilities will manufacture both agrichemical technical and formulation products.

Hyderabad based Natco Pharma Limited has initiated work on green-field manufacturing facilities for producing Niche Agrichemical products in the Nellore District of Andhra Pradesh. These facilities will manufacture both Agrichemical Technical and Formulation products.

Natco strongly believes that its pharma strength in chemistry coupled with acumen towards the selection of niche molecules would differentiate itself in the Agrichemical space as well. Natco expects the facilities in Nellore district to be commissioned by end of 2019 with a total capital expenditure of Rs 100 crores.
