

New Barn Organics to use PlantCarton™ Packaging

13 March 2019 | News | By Sonali Wankhade

The PlantCarton™ brand is the culmination of Evergreen Packaging's longstanding commitment to sustainability with an emphasis on the importance of using renewable materials in packaging

Evergreen Packaging, a global leader in plant-based packaging solutions, and New Barn Organics have announced that New Barn Organics is transitioning its Almond Milk line, previously packaged in plastic, to Evergreen's PlantCarton™ paper packaging. The PlantCarton™ brand is the culmination of Evergreen Packaging's longstanding commitment to sustainability with an emphasis on the importance of using renewable materials in packaging.

All of Evergreen's PlantCarton™ packages are made with at least 70% renewable material; paper made from trees where responsible forestry practices are used. PlantCarton™ packaging is also recyclable.

Evergreen Packaging is committed to providing sustainable packaging solutions that help brands enhance their responsible sustainability story with products that give confidence in the supply chain and the environmental impact of packaging. In addition to PlantCartons™, Evergreen Packaging offers other sustainable solutions such as renewable cupstock and ice cream board.
