To begin I wish to congratulate "TEAM Nutra India" for organising summits at most appropriate times when Nutracuticals was a buzz word in India. Initiative taken by MM Activ and "TEAM Nutra India" under able guidance of Dr V Prakash has created enormous awareness in India. Focussed knowledge on nutrition and nutraceuticals imparted during various summits has triggered many enterprises and organisations to venture in this field. As a result exponential growth of this segment prompted Government of India to set up a regulatory mechanism giving birth to FSSAI. Kudos to MMActiv and "TEAM Nutra India". Another futuristic venture of publishing "NuFFooDS Spectrum" is a bold step in the right direction. My "Hexagon Nutrition" team joins me in wishing "NuFFooDS Spectrum" a great success.
