Rajesh Kumar, CEO, Sami Direct

Let me first congratulate you and the entire team of MM Activ on this wonderful and much needed initiative. I always thought there was a void in communication among all the thought leaders of this industry as we get to meet only once at the Nutra Summit.

Let me first congratulate you and the entire team of MM Activ on this wonderful and much needed initiative. I always thought there was a void in communication among all the thought leaders of this industry as we get to meet only once at the Nutra Summit. Last time I expressed the same to yourself and Dr Prakash that this forum should happen on a every quarterly basis followed up with the Mega Annual Event.

Now with this initiative we have a better solution which bring all the latest update on the new technologies, innovations , process, policy matters and follow ups on other critical issues. It would be my real pleasure and privilege to contribute my bit towards this initiative.

I had a meeting with your goodselves (Narayan Kulkarni) and provided my inputs on the direct selling industry and its contribution to various segments directly/ indirectly. I would be more than happy in case anything more is needed from my end.
My best wishes for a grand and successful launch of the first edition and would be looking forward to a long term association with NuFFooDS Spectrum.
