Ingredion, a leading global ingredient solutions provider to the food, beverage, brewing and pharmaceutical industries as well as numerous industrial sectors headquartered in Westchester has announced the launch of Ingredion Idea Labs innovation centers to provide science-based collaboration and problem solving expertise for our food, beverage and industrial customers on July 8.

Their network of 24 labs around the world represents an expansion and rebranding of Ingredion’s R&D and technical service foundation. Helping its customers create innovative and on-trend products, the Ingredion Idea Labs offer solutions in four key areas: consumer insights, applied research, applications knowhow and process technology.

The innovation headquarters in Bridgewater, New Jersey features state of the art texture facilities and new sweetness capabilities and acts as the global hub for applied research. Labs in each world region, North America, South America, Europe, Middle East, Africa and Asia-Pacific will offer expanded sensory and CULINOLOGY capabilities.

The new Ingredion Idea Labs are yet another way the company is developing ideas and delivering solutions to its customers around the world, every day.
