Mérieux NutriSciences is dedicated to protecting consumers' health throughout the world, by delivering a wide range of test and consultancy services to the food and nutrition industries. In addition, we also serve companies in the water and environment, agrochemical, consumer goods, pharmaceutical and cosmetics sectors.

As a global scientific group and Food Safety expert, MXNS supports its clients with Digital Solutions to manage risks all along their value chain.

QualMap is a data solution that allows users to:

- Integrate data from multiple sources
- Configurable & interactive dashboard for high-level monitoring
- Track conformance to customer & corporate requirements

**About IAFP**

The International Association for Food Protection (IAFP) represents more than 4,300 food safety professionals committed to *Advancing Food Safety Worldwide*. The association includes educators, government officials, microbiologists, food industry executives and quality control professionals who are involved in all aspects of growing, storing, transporting, processing and preparing all types of foods. Working together, IAFP members, representing more than 70 countries, help the association achieve its mission through networking, educational programs, journals, career opportunities and numerous other resources.
