Self-checkout software designed and built in-house by the WayCool Labs team

SunnyBee Market, a chain of food stores in Chennai has introduced India’s first-of-its-kind self-checkout store in Besant Nagar, Chennai, considering the need for a safe shopping experience by limiting contact and to improve overall speed of checkouts.

WayCool Labs - the technology arm of WayCool Foods & Products, a leading agritech firm based in Chennai has developed this custom solution for SunnyBee.

An integrated hardware & software solution, the self-checkout counter occupies a minimal 4 sq. ft. floor space with a built-in high-speed scanner, touchscreen panel, and a billing printer. The counter eliminates the need to interact with the store staff altogether

SunnyBee Market, founded in July 2015, is a one-stop premium food store that offers a wide assortment of more than 5,000 SKUs across multiple categories like regular & exotic F&V, Dairy, Staples, Indian and International foods.

Operating 6 stores in Chennai, SunnyBee Market also conducts SunnyBee Santhai, a farmer and consumer connect platform where farmers sell their produce directly to consumers.
