The thins are available in two variants-- flavours containing superfood ingredients (sesame, chia and quinoa) & flavours from regular biscuit category (milk, chocolate

and salty)

Bonn Group of Industries has launched a new range of Americana thin biscuits in their elaborative biscuit and cookies portfolio. The thins are available in two variants-- flavours containing superfood ingredients (sesame, chia and quinoa) and flavours from regular biscuit category (milk, chocolate and salty) and will be available across the North Indian states of Delhi, UP, Haryana, Punjab and Himachal Pradesh.

“Thins, which are quite popular in western countries, is the first of its kind initiative in India. Consumers want light, easily digestible and nutritious option for anytime snacking. The chia and quinoa seeds biscuits are rich in Iron, Magnesium, Potassium and Fiber. Whereas, Americana Thins Sesame has health properties including boosting bone health, digestion anti-ageing properties, good source of energy and stabilizing blood pressure. This new range of biscuits will facilitate Bonn’s strategic expansion while assuring the brand remains sustainable and catering to people’s need in these changing times”, said Mr. Amrinder Singh, Managing Director, Bonn Group of Industries.

The Americana Thins are available in 36 grams and 75 grams packs worth Rs 10 and Rs 20, respectively.
