Plans to disrupt the oncology nutrition market

Mumbai-based startup Esperer Nutrition (EON) has unveiled India’s first Cancer Nutrition Research Centre in Hyderabad. The one of its kind nutrition research centre will provide aid in offering quality field and lab study in order to provide first-rate results to the end-users.

As per a recent global nutrition report, India falls under top malnutrition country and at the same time with high cancer prevalence. Esperer Nutrition with its one of kind Cancer Nutrition Research Centre aims to narrow down the growing concerns with the idea to improve the quality of life of cancer patients by conducting rigorous field and lab studies in order to find a concrete solution.

Embarking on the new journey, Raktim Chattopadhyay – Founder & CEO, Esperer Nutrition said, "India’s cancer mortality rate is much higher than western countries (68%Vs 37%). Diversity of Lifestyle and food culture plays a significant role in cancer mortality and etiology. Based on the cancer registry data, it is estimated that there will be about 800,000 new cancers cases in India every year which in itself is a big number. With Esperer Cancer Nutrition Research Centre, we aim to initiate rigorous field and lab study to address the growing challenges when it comes to oncology nutrition and takes responsibility to integrate various socio-economic concerns thus to improve quality of life cancer patient and various cancer-preventive physiological conditions (NCDs)."
