Both food standards and trade go hand in hand to ensure safe, nutritious and sufficient food for a growing world population

The Federation of Indian Chambers of Commerce & Industry (FICCI) is conducting a focused webinar session on **“Role of Codex: Unveiling the opportunities for Global Food Trade**” on 16th November 2021 from 1030-1200 hrs. Rita Teaotia-Chairperson, FSSAI will be the Chief Guest for the event

Harmonization of food regulations and adoption of international food standards are critical to achieve the objectives of codex and the outcomes largely depend on the active participation of Codex member countries in standard setting in such a way that standards carry relevance across the global landscape both in terms of content and uptake by countries.

With this background, to understand this interesting topic, the webinar session will be focused on following key components:

- Overview of Codex Principles and Procedures and its implications on Trade; Importance of Food Industry participation in Codex activities.
- Role of Codex: Unveiling the opportunities for Global Food Trade”

Senior experts from FSSAI, Industry, Consumer organization, international organization will share their expertise in webinar.
