Both salted and unsalted version is available in 250 grams package and priced at Rs 250

Telangana-based startup Sid’s Farm has ventured into natural, unaltered cow and buffalo butter, available in salted, unsalted options.

Focussed on bringing unaltered butter from farm to plate, the brand focuses on keeping it as close to nature as it is intended to be. Processed from the plant situated at Shabad, Telangana, Sid’s Farm Cow & Buffalo butter both salted and unsalted version is available in 250 grams package and priced at Rs 250.

Sid’s Farm specially developed cow butter packs a similar nutritious value as its buffalo butter at 740 Kcal of energy and 0.6 gm of protein while keeping the product natural and retaining its core nutritional values. The unaltered processing makes both the butter variants rich in vitamin A, D & E.
