Haemo Glanemia care has powerful Ayurveda herbs like Giloy, Chirayata, Wheatgrass, Radish seed etc

Vedas Cure, headquartered in Noida, has introduced the Ayurvedic composition product named 'Haemo-Glanemia Care', effective for patients suffering from Anaemia, deficiency of Haemoglobin and Iron, and also useful in treating patients suffering from Thalassemia.

The medical expert’s team at Vedas Cure found out that a large number of women are suffering from conditions leading to deficiency of blood that gives rise to fatigue, deficiency of iron, and difficulty in conceiving too. For women, normal Haemoglobin by medical experts is typically defined as a level of more than 12.0 gram/100 ml, and in men, Haemoglobin should be of more than 13.5 gram/100 ml.

The experts at Vedas Cure advised taking 2-5 gms of Haemo-Glanemia Care, twice a day after meals with lukewarm water. The Ayurvedic composition consists of natural herbs like Giloy, Chirayata, Wheatgrass, Radish seed, Tulsi Patra, Amla, Arjun Chaal, Dalchini, Mulethi, Lal Chandan, Shatavari, Gulab Pushpa, Brahmi, Nagkesar, Ashok Chaal, Bichhu Boti, Bhumi Amla, Punarnava, Sarphonka, Lauh Bhasma, and Mandoor Bhasm.

Vikas Chawla, Founder & Director, Vedas Cure, said, "Lack of RBCs, condition of Anaemia and deficiency of Haemoglobin are commonly occurring diseases nowadays in women. Lack of adequate blood in a female’s can cause major health issues like difficulty in conceiving, infertility. For such conditions Vedas Cure have other special products like Preg-Infert Care, however addressing the root cause of inadequate blood production which can have a major impact on nutritional levels must be addressed via Haemo-Glanemia Care."
