For boosting immunity of children and helping in preventing recurrent cough and cold

Mumbai-based Sandu Pharmaceuticals has launched a new product Sandu Kumarvin, a tonic that is useful for the adolescent age group of children aged 2 to 14 years.

Sandu Kumarvin syrup is made with Kumari, Draksha, Surwari Haritaki, Arjun, Lavang, Twak and Kiratatikta Ayurvedic herbs that are useful to boost the immunity of children and keep children healthy in all seasons. It also helps absorb various nutritional elements and promotes the child's overall growth & development.

"Sandu Kumarvin is extremely beneficial in boosting the immunity of children and also helps in preventing recurrent cough and cold. It also helps strengthen the lungs and is an ideal medicine to help prevent respiratory tract infections," said Dr. Virendra Kumar Kori, Assistant Professor of Kaumarbhritya at the Institute of Post Graduate Teaching & Research in Ayurveda, Jamnagar.

Among other benefits, Sandu Kumarvin is useful in various stomach problems arising due to liver dysfunction such as loss of appetite, ascites, enlarged liver, enlarged spleen, etc. It is also a mild laxative, relieves abdominal gases of distention, and is also helpful in relieving tenacious sputum. Further, it improves the overall liver functions and enhances appetite with improved digestion, leading to positive health in children.
