Launching new products for children to ensure right and proper growth

New Delhi-based Panacea Biotec, one of India’s leading biotechnology company, has announced the launch of its new range of high-quality paediatric food and nutritional products in India by its wholly owned subsidiary, Panacea Biotec Pharma.

The products ChilRun, ChilRun Full, ChilRun No Sucrose, ChilRun 7+ in different flavours and sizes will be catering to the domestic market.

The company has further plans to add more products in this newly explored space of food and nutrition, focusing on women's health and geriatric population.

According to the Indian Academy of Paediatrics, good nutrition in the growing age builds up bones and muscles and provides fuel for every body cell to survive and function. Good nutrition is just not enough caloric intake but it relies on a solid nutritional foundation, which includes the correct amount of each required nutrient, from healthy sources and at proper time.
