In a significant step towards sustainable packaging solutions, Ball Corporation, a global leader in sustainable packaging, has announced its partnership with CavinKare, a pioneer in the dairy industry. Together, they are set to revolutionise dairy packaging by introducing retort two-piece aluminium cans for CavinKare's popular milkshakes.

As quoted by Manish Joshi, Commercial Director at Ball Beverage Packaging Asia, "Dairy & Dairy Alternatives have been an integral part of India and are forecast to grow at a CAGR of 4.1 per cent by 2028. Our focus is on the Ready-To-Drink segment which is expected to grow faster due to unique flavor offerings for consumers to choose from. Ball India has invested in the capability to produce retort aluminium cans specifically tailored to the demands of the dairy market. This expansion of our portfolio underscores our dedication to both product innovation and sustainability, allowing a wide variety of flavoured dairy products to be packaged in our aluminium cans."

Retort Aluminum cans are carefully designed to withstand the rigorous retort process, ensuring the preservation of flavour, nutrients, and freshness of dairy products. Moreover, these cans align perfectly with the modern consumer's on-the-go lifestyle.
