Key highlight of the showcase include Made-in-India horizontal filter for sugar syrup, India's first beverage carton with recycled polymers

Tetra Pak, a world-leading food processing and packaging solutions company, is showcasing a portfolio of cutting-edge solutions at Drinktec India 2025 in Mumbai.

Key highlights of the showcase include Made-in-India horizontal filter for sugar syrup, India's first beverage carton with recycled polymers, and a range of value-based beverage concepts inspired by the evolving Indian consumer palate.

Saurabh Sinha, Managing Director, Tetra Pak said, "India's beverage industry is at an inflection point—where cost leadership, innovation, and sustainability are no longer independent goals, but interdependent imperatives. At Tetra Pak, we see these solutions not merely as a tool for productivity, but as an enabler of transformation—helping producers deliver more with less, while reducing their environmental footprint. Our showcase at Drinktec embodies this philosophy, demonstrating how data, design, and purpose can converge to create value for both business and society."

Featured technologies include:

- Sustainable Beverage Line: Engineered to reduce water and energy consumption without compromising output
- Tetra Pak In-line Blender B: Ensures precise blending for superior consistency and minimal ingredient waste.
- Made in India – Horizontal Filter for Sugar Syrup: Locally designed to deliver exceptional syrup clarity and filtration performance.
- Tetra Pak E3/Speed Hyper: The world's fastest aseptic carton filling machine, producing up to 40,000 packs per hour through eBeam sterilisation technology, combining speed, reliability, and cost efficiency.
- Packaging Portfolio: Configurations for optimized performance

In response to India's rapidly evolving consumption patterns, Tetra Pak is presenting formulations that have enabled producers to deliver differentiated, high-value products:

- Low-sugar formulations that balance taste and health with reduced sugar content.

- Advanced hydration and functional beverages enriched with electrolytes and functional ingredients for wellness
- Protein-forward dairy and plant-based alternatives for nutrition and satiety, catering to a new generation of health-conscious consumers.
- Lactose-free and fortified dairy offerings with added vitamins and minerals for better nutrition.
