The event will bring together 1,000+ exhibitors and 100,000 global visitors to showcase cutting-edge commercial refrigeration and fresh-keeping technologies

Guangzhou stands as the world’s leading manufacturing hub and demand engine for commercial refrigeration equipment, home to a complete industrial chain from core components to integrated systems. Driven by national policies, technological innovation, and the strategic advantages of the Guangdong-Hong Kong-Macao Greater Bay Area, the market continues to evolve toward high efficiency, intelligence, and sustainability.

Against this backdrop, The Grandeur-hosted **2026 Asia Commercial Refrigeration Equipment Exhibition**, a key theme exhibition under the Retail Commercial Intelligent Equipment & Goods Expo, will be held from **April 9-11, 2026**, at the **Poly World Trade Center Expo in Guangzhou, China.**

As a leading and influential industry event in the Asia-Pacific region, this edition will span over 80,000 sq.m., gathering 1,000+ industry leaders and attracting 100,000+ global professional visitors.

The exhibition will comprehensively showcase the latest innovations across the entire industry chain—from commercial refrigeration equipment to fresh-keeping technologies—offering a vital platform for global participants to access strong local demand, explore cutting-edge applications, and foster cooperation between Chinese manufacturing and international markets.
